On Tuesday, September 25, 2018, Royal Skousen spoke at BYU on the just-published *The Nature of the Original Language*, parts 3 and 4 of volume 3 of the Book of Mormon Critical Text Project, sponsored by BYU Studies and the Interpreter Foundation. The lecture included additional commentary by Stanford Carmack, Skousen's collaborator in authoring and researching these two new books.

The two new books are available for purchase from BYU Studies, the joint publisher of these books, along with the Foundation for Ancient Research and Mormon Studies (FARMS), at https://byustudies.byu.edu/content/nature-original-language-book-mormon-parts-3-and-4-volume-iii-book-mormon-critical-text.

We are pleased to make the video of Dr. Skousen's presentation available.
